Brief description of requested services

Independent Applicants are invited to submit Pre-Qualification Documents (in accordance with KfW Guidelines) to participate in the tender process for the design and construction of the 400/220 kV Ddmashen (air insulated) Substation in Armenia on a turnkey basis. The scope of work shall include the design, manufacturing, delivery, installation, commissioning and acceptance testing of the equipment to be installed and the entire substation in every respect and suitable for satisfactory operation. The period foreseen for the completion of the Works is 30 months followed by a 24-months defects notification period.

The Employer expects interested Applicants to request the Prequalification documents via Email at projects@hven.am.
